GEORGE J. AND HIS FAMILY RETURN FROM EUROPE.

DICTCLING TRIPS ABROAD-WHAT MR. GOULD HAS TO SAY-OTHER PASSENGERS

ON THE ST. LOUIS. | George J. Gould, Mrs. Gould, their five children, Mrs. Kingdon, the mother of Mrs. Gould, and retinue of about ten servants arrived here last evening from Southampton on the American Line steamship St. Louis. The party brought ten bloycles and thirty pieces of luggage. Their faces were well tanned from bicycle trips through Switzerand and France. They looked exceedingly well and had all the appearance of a merry party home after the holidays. They were away three months. It was not long after the gangplank from the steamer had been laid down at 6:30 o'clock that Mr. Gould crossed it bearing his youngest child, Vivian, in his arms. Then came Mrs. Gould, fol lowed by her mother and by the four other children, Kingdon, Jay, George Jay, Jr., and Marjorie The servants came along afterward leaded down with luggage. The party gathered about their baggage, which had been piled on the pier. The bleycles, each packed in a case, made an imposing bleycies, the giving directions about his baggage sight. After giving directions about his baggage to his valet, Mr. Gould accompanied his wife, mother-in-law and children to carriages and they were driven to the Grand Central Station, where they took a train for Furlough Lodge in the Cats-

Mr. Gould before leaving the pler talked freely about his trip abroad, waxing enthusiastic over the subject of bicycling, but had little to say upon affairs in New-York, pleading ignorance of political and other conditions here. He denied emphati-cally the numers about the selling of the Gould and Sage interests in the Manhattan Elevated Rull-

"There is an excellent idea in England and on the Continent," he said, "of the era of prosperity that has set in in the United States. I am naturally pleased at the good prospects which the future promises. There is generally among people on the other side a feeling of respect for the productiveness of this country and the capacity of the Amer-

ican farmer. "There is nothing American more popular abroad than our bicycles. They are to be found every-where, and half of the cargo of the steamer on which I went over was made up of bicycles.

We did a great deal of wheeling in Europe and derived much pleasure from it. Mrs Gould enjoys it equally with myself. I do not expect to have any duty to pay under the provisions of the new Tariff law, as the only foreign article I brought with me is a pair of worn-out \$250 breycle trousers, which, if the Government wishes to tax, it may keep. The things that we did buy abroad were expressed to this country earlier."

Mr. Gould characterized the suit of Mrs. Angell against his father's estate as a case of blackmail, and said that he should leave the prosecution of the witnesses who had perjured themselves in it to the

proper authorities.

Thomas G. Shearman, the lawyer, single-tax advocate and free trader, was also a passenger on the St. Louis. He said that, although a friend of Henry George, he should vote for Seth Low for Mayor.

Among other passengers on the St. Louis was J. R. Soley, formerly Assistant Secretary of the Navy ander General Benjamin F. Tracy and the latter's aw partner, who was met at the pier by General Fracy and J. Pierpont Morgan. Mrs. Soley and the Misses Soley were with him. Among the other arrivals were the Right Hon. W. J. Pirrie, Lord Mayor of Beifsat and builder of several of the White Star Line steamships, and Mrs. Pirrie. E. S. Willard, the English actor, and the following members of his company: Miss Maud Hoffman, Miss Keith Wakeman, J. G. Taylor, Mr. and Mrs. Oswald Yorke, Eromley Davenport, and Mr. and Mrs. Canei. Mr. and Mrs. Gouverneur Morris, Augustus Jay, fr. De Lancey Kane Jay, Mr. and Mrs. Irving Grinnell, Mr. and Mrs. Louis C. Tiffany, M. H. Aspinwal, Colonel W. J. Alt, Livingston Biddle, Craig Biddle, Mrs. George W. Childs of Philadelphia: Frofessor Seymour Eaton, D. Newlin Fell, Harry W. Hill, John T. McAuley, George L. Knowles, Archibaid C. Knowles, Harry Markoe, jr. Professor Joseph P. Remington, Charles H. Steinway, T. O. Selfridge, Mr. and Miss Turnure and William Wiggins.

The amount of duty collected from the passengers was small, being less than \$1,000. Home-coming travellers are becoming informed of the "personal effects" clause of the new Tartif law, and are bringing very few articles purchased abroad. There was a large force of customs inspectors at the pier, and the bagging was handled expeditiously. under General Benjamin F. Tracy and the latter's

TO RUN FOR MAYOR OF ALBANY.

JOHN F. RATHBON CHOSEN BY THE REPUBLICANS AND THE VIGILANCE LEAGUE.

Albany, Sept. 17.-General John F. Rathbon was chosen to-night as candidate for Mayor by the local Republican organization and the Vigilance League conference committees. He has been a Good Government man for a long time.

CTENTIONS OF A CERTAIN ENGLISHMAN As soon as the French dancers and singers and

so on began to come to town there were those shook their heads and said that there would just as likely as not be goings on. And goings on were reported last night. A certain French entertainer is staying at a certain hotel. Yesterday, according to a report, she was in her room when a card was brought up. On it was a man's name which she did not recognize. But she told the boy to tell the gentleman that she would come

France they don't manage things so well as that. Then she recognized the man as an Englishman who had formerly admired her and had given her some diamonds. No French encertainer who amounts to anything can recognize offhand the name of every man who has ever given her diamonds. He said that he had followed her across the bounding deep and he asked her to take luncheon with him. She took luncheon with him. While they were sitting at the lable he leaned across it. She does not know whether he meant to kiss her or to strike her, but she felt that she could not stand either, and so, knowing full well the approved rules for a fight, she struck the first blow herself. Then the man escaped, and no-body knows yet whether he was going to kiss her or strike her. Possibly nobody ever will know. The name of the French entertainer is here withheld, on account of the respectability of the establishment at which she is to appear, if her French manners permit her to live and to keep her health and her strength till the time comes. Then she recognized the man as an Englishman

NOTES OF THE STAGE.

Mrs. Thomas Whiffen arrived in this city yesterday on the way from the West to join her hus band, who is dangerously sick in Lendon. She will sail to-day on the Campania.

The opening of the regular season of Koster & Bial's Music Hall, which was to take place on Monday night, has been postponed till a week Monday night, has been postponed till a week from Monday, September 27. New-Yorkers will therefore have to wait for the appearance of Mile. Cléo de Mérode, the "Faust" bailet, Mile. Paola del Monte and all the rest of it. Among the reasons assigned for the postponement are the difficulty of getting the ballet sufficiently rehearsed in time and the trouble in getting costumes and scenery through the Custom House.

The 125th performance of "The Whirl of the Town" was celebrated at the Casino last night by the distribution of souvenirs.

"THE SWELL MISS FITZWELL."

Trenton, Sept. 17 .- H. A. Du Souchet's new farce, The Swell Miss Fitzwell," which he wrote for Miss May Irwin, had its first production on any stage at Taylor Opera House to-night, and was a decided Success. The star and the play were received with enthusiasm by an audience which packed The star and the play were received wery part of the house. The farce was staged with much elaboration and beautifully costumed. Its Irwin has in this piece opportunities to enterthin her audiences in her characteristic way. Sevial individual hits were made by members of the carpany. Miss Irwin's new songs were well received.

THE HOTEL MAJESTIC LEASED.

The Hotel Majestic, Central Park West and Seventy-second-st., was leased yesterday for a term of several years to Webster & Eagle, of Bradford, Mass. The lease calls for an annual rental of \$25,000 a year. The Majestic is owned by a stock tompany, and Jacob Rothschild is the principal mechanider.

An officer of the church, who was seen last night at the parish-house, No 11 East Twenty-ninth-st., by a Tribune reporter, said: "There is no doubt about the Rev. Dr. George C. Houghton becoming the vicar of the church, as a call has been extended to him and he has accepted. No official announcement of the selection of a vicar, however. has been made. When Dr. Houghton will begin his new labors I do not know. He has made arrange ments to preach in the church at the forty-ninth anniversary of the founding of the parish and the forty-minth anniversary of the rectorship of Dr. George H. Houghton, which will be on the first Sunday in October. The rector of the church, although well advanced in years, will remain the rector until the end of his days.

The Rev. Dr. George C. Houghton is now in the Adirondacks. He has been the rector of Trinit; Church for the last sixteen years, and the Super-intendent of Public Schools of Hudson County for many terms. He was also for a long time a member of the Board of Trustees of the Industrial School of Manual Training in Hoboken.

Trinity Church, Hoboken, has a large and fastionable congregation, and is one of the wealthlest Episcopal churches in New-Jersey, having benefited by many memorial gifts. Its last legacy was a bequest of \$20,000 by the will of John Stevens, if Castle Point.

NEW-YORK'S FIGHT AGAINST TAMMANY.

THE COUNTY COMMITTEE'S RESOLUTION

From The Commercial Advertiser, From The Commercial Advertiser.

The resolution adopted last night by the Republican County Committee of New-York should not be construed as meaning more than it says.

That it is the duty of the Republican City Convention, in maintenance of Republican extraciples and Republican organization, and to secure to the people of this city of New-York housest and intelligent government, to nominate a these of its own selection representative of the sentiment and purspaces of the Republican parts.

gent government, to nominate a theket of its eway assection representative of the sentiment and purpose of the Republican party."

This is in exact conformity with the original declaration, that the convention, when it assembled would put in nomination the man who, in the situation as then developed, would must surely win the fight for good government against Tammary Hall. Coupled with that declaration, it will be remembered, was the promise that the organized Republicans would do nothing to prevent a union of all the anti-Tammany forces.

THE PRESIDENT KEEPS ALOOF.

From The Worcester Spy. Probably the McKinley Administration has resisted the latest effort of Platt to secure an officialliance against Seth Low, indeed, the Problem said rather to approve of Mr. Low, and to have once offered him the Spanish mission.

NOT A REAL INDICATION.

The vote of the Republican County Committee across the river last night is worth much less than its face value. Its significance would have been emphasized had it been decidedly against Low, but not unanimous. It was much too over whelming an affair to be of any real service as a indication. What it indicates, it anything, is that the Mannattan machine is a fine piece of work manship. To call it representative would be to make a mockery of the word. The vote mean nothing if it does not warrant the surface assumition that Seth Low has no strength whatever I what is to be the Borough of Mannattan. Such a assumption as that could find a home not even in a lunatic asylum. The vote of the Rang

THE LOGIC OF EVENTS.

From The Buffalo Enquirer. From The Buffalo Enquirer.

But in order to defeat Worth Platt's lieutenants in Brooklyn were actually obliged to piedge their support to Seth Low, whose popularity with the Republicans of Brooklyn is great. Accordingly the committee indorred Low's candidacy by a vote of 15t to 28. Since Platt allows his Brooklyn frienda to support Low, it may well be asked why it is impossible for Platt himself and his New-York followers to accept Low in their own good time. That is clearly the logic of events.

REPUBLICANS FOR GOOD GOVERNMENT. From The Warwick (N. Y.) Advertiser.

From The Warwick (N. 1.) Advertiser.

There are probably no Republicans who won
not greatly prefer Mr. Low's election to that
any Tammany man. But in the manner of h
nomination and the sentiments of his letter the R
publicans, as a party, would have no recognition h
him, if elected. If, under these conditions, the
publicans should indorse him they would as
party be acting from a more noble and disinterest
motive for good government than the men wi
have hastened his nomination.

WHY NOT FOLLOW BROOKLYN'S LEAD? From The Brooklyn Standard-Union.

From The Brooklyn Standard-Union.

In his delays of decisions that might increase difficulty, and his letter of declaration is avowelly and irreproachably a platform. Mr. Low has prepared the way of conciliation and has held himself in the position that he may be accepted as the "unifying force" he held in his spring letter as the primary essential when satisfied that the call of the people was a command. Therefore there is no reason why the Republican regulars of New-York may not yet do what Republican regulars of Erooklyn have done, affirm that Seth Low is their candidate, this in few plain words, putting aside all minor issues.

A NEW INSPIRATION IN NEW-YORK. From The Watertown Times.

Brooklyn Republicans did not sustain the leader-ship of Worth, but they did sustain the candidacy of Low by a large majority. Indeed, it begins to look as if Low could be elected even against nom-inees put up by both Republican and Democratic machines. The Greater New-York seems to have a new inspiration of civic pride and a determination to start off well.

A NONSENSICAL PROPOSITION.

From The Hartford Courant. The proposition is that the election to the New-York Mayoralry this year of a Republican who is an honor to his party and a citizen who has made proof of executive ability is going to hurt Repub-lican prospects in the Congressional elections of 1838. It is a nonsensical proposition.

TWO IMPORTANT PRINCIPLES. From The New-Haven News.

Mr. Low's letter is the broad assertion of two important principles, that should be of active force in every municipal government—that of a non-par-tisan administration of local affairs and that of

DIFFICULT TO REFUSE INDORSEMENT From The Elizabeth Journal.

From The Elizabeth Journal.

Mr. Low's letter, accepting the nomination for Mayor tendered him by the Citizens Union, is clear, concise and candid. It leaves no question upon any vital issue in the campaign. No one will be deceived into voting for him, for his language cannot be misinterpreted. The manly way in which he meets the issues makes it all the more difficult for the New-York Republicans to refuse to indoze him.

ONE-MAN DICTATION.

ONE-MAN DICTATION.

From The Chicago Tribune.

The Republican party, not only of Greater New-York, but of the Empire State, will be placed at a great disadvantage if it can be truthfully said that its policy and the choice of its candidates for office are to be dictated by the whim or caprice of a single man or mere coterie of men for the benefit of themselves and friends and to gratify their spite against some one whom they believe inimical to their ambitious designs. The pending election of Mayor of New-York City seems just such a case as is to determine whether that is to be the result or not.

THE SILVER PLAN IS CARRIED OUT. London, Sept. 17.- "The Westminster Gazette," upon the letter of the Governor of the Bank of England, Hugh C. Smith, to the Chancelor of the THAN WILLIE ANDERSON—THE AMATEUR Rockaway Club, of Cedarhurst, and the Country Club, of Westchester. The Park employes have that the bank is prepared to carry out what is permissible in its charter-namely, to hold in silver one-fifth of the bullion held against its note issue. provided, always, that the French mint is again open to the free coinage of silver and that the prices at which silver is procurable and salable

are satisfactory. The newspaper mentioned says: meaningless, so far as practice is concerned, it is to be deeply deplored that the bank has budged from its principle. It isn't dignified for the Old Lady of Threadneedle Street to flirt with the bimetallist faddists. We want gold against our notes, and there is no reason why an old statute, passed when silver hore an entirely different character, should be refurbished at the bidding of those who want to dispose of silver. The bank's reserve is not so large that it can be tinkered with. Morenot so large that it can be tinkered with. Moreover, by yielding in these matters of principle we
open the way to the thin end of the wedge. If the

"The scheme seems to be knocked on the head for the present; but the reception of even this feeble innouncement in the city will have an effect anything but favorable to the bimetallists. A substantial element of indignation arises at the feeling that the Government and the bank have been doing a little diplomacy at our expense and for the ad-ventage of Americans. The United States has done nothing to make such a risky politieness to the silver men on our part popular in this country."

"The Globe," joining in the discussion this after-Governor of the Bank of England:

The whole scheme is innovating and mischievperilous to subject our monetary system to foreign influence through the Government. If, as should have been done, the proposals of the United States and France had been handed to the directors with-out official recommendation or pressure, it can scarcely be doubted that the directors would have firmly declined to further the project."

The letter of the Governor of the Bank of Eng-land strengthers the impression among the bankers who have hitherto not energiated it, that the Gov-

posals later, and it is also interpreted as a reply to a replest from the theremment to the bank, asking the latter to co-operate with the former. But it is thought that the fail is the price of eliver since the letter was written may change the programme. There is considerable dissuffaction on the subject among the stockholders of the Bank of England. Robert Benson, a prominent banker, who holds flow of stock as trustee, has given notice to the bank that he will sell if the sliver policy is inaugurated, and he aids that other trustees will do the same

NOTHING WRONG WITH THE INDIANA.

SLIGHT BUCKLING OF HER PLATES IN DRYDOCK AT HALIFAX OF NO CONSEQUENCE. Washington, Sept. 17.-Acting Secretary Roose

valt has been making an investigation into the re-ports that the battle-ship Indiana was seriously injured in dock. To-day he said: "The elaborate statemen's as to the injuries of the Indiana, due to her docking at Hallfax, were relterated with such proumstantiality that I finally telegraphed to find out whether there was any basis for them, and out whether there was any basis for them, and found there was not. I was aboard the Indiana the other day, and talked with her captain, and she was in excellent trim. I should be surprised to find that anything had gone wrong since, and nothing has gone wrong excepting the reported defect in one gun, concerning which we shall know nothing until the return of the expert sent down. The injury sustained in the dock at Halifax consisted in the slight buckling of some of the plates, rowhere amounting to an inch and a half. So rivial was it that it did not cause the tiniest leak. It is the kind of an accident, if it can be called an accident, that is sustained continually by heavy ships, men-of-war or merchantmen, in docking. That it does not impair the ship's efficiency in the least would be evident to any one who had seen the Indiana at sea."

JOE PATCHEN GETS A HEAT. DEFEATS STAR POINTER IN THE SECOND TRIAL

OF THEIR MATCH AT INDIANAPOLIS,

Indianapolis, Sept. 17 .- Joe Patchen for the first time since the Columbus meeting in July showed Star Pointer his dust to-day. The wonderful black stallion captured the second heat in the battle between the two pacing kings. He had the pole, the place being won by the flip of a coin, and from the word he cut the route and was not headed. the word he cut the route and was not headed. Star Pointer won the first heat in comparatively easy form, in 2:043. McCleary was driving in fine style, and he counted on the second heat being taken with equal ease. Patchen had faitered some in the first. An experiment had been tried in his shoeing. For the first time in weeks, delay was caused in getting the word, due to his breaking. His rounding in form was superb, and the crowd of forty-five thousand people was immensely pleased at his swiftness. Following is the summary:

RIGHTS IN CHINESE PLAYS.

STOCKHOLDERS THREATEN TO SELL IF A PRETTY CONTEST IN THE OPEN TOUR. THERE ARE TWO, BOTH ORIGINAL, AND NO-BODY WANTS TO HAVE ANY TROUBLE.

There seems to be just a possibility of an opportunity for triction between Oscar Hammerstein and Charles Frohman about Chinese plays. Friction is not common in theatrical affairs, and especially is Mr. Hammerstein a stranger to it, and it may well be imagined that he will avoid it if he can.

one-act play called "The First Born," in which all the characters were Chinese. It was said to b considerable success, and the play was bought by Charles Frohman and David Belasco, who have now been at work for some time on a production of it, having scenery painted, securing a company, etc. It is now announced that a one-act play called "The Cat and the Cherub," by Chester Balley Fernald, will be presented at Mr. Hammerstein's Olympia on Monday evening. LARGE INCREASE IN PENSION PAYMENTS.

OMMISSIONER EVANS THINKS IT WILL BE NEC ESSARY TO ASK FOR A DEFICIENCY

Washington Sept. 17. Commissioner Evans the Pension Bureau said te-day that he thought it would be necessary this year to ask Congress for a deficiency appropriation on account of pen-sions. He continued: "I estimate that the total payments for the year will not exceed \$147,500,000, and the appropriation for the year is \$141,263,880. If there should be an unexpected falling off in the

If there should be an unexpected failing off in the revenues the pension payments might be curtailed toward the end of the year, although I do not think that is at all likely.

The increased payments, he said, would be due chiefly to the fact that there are about two hundred thousand old claims pending, which it is the intention of the Rureau to adjudicate as rapidly as possible. The claims allowed probably would call for something like \$5.00.00. There also had been a remarkable increase in the number of new pension applications, and these would largely increase expenditures. In answer to a suggestion that there might be a deflet in the Treasury at the end of the fiscal year, the Commissioner said that he was of the opinion that there would be a sufficient increase in the revenues before the year was over to prevent a deflet.
